About me

TO DUC MANH

I am currently living in Hanoi. For the past 2 years I have been studying graphic design at FPT University. During that time I did design as homework, hobby and also to make a living. My projects range from digital printing to product design. I am currently looking for an opportunity to contribute my talents, enthusiasm and creativity. I hope to have the opportunity to hone my design skills at your company.

EDUCATION

Start: 05/09/2019
Major: Digital Art & Design
GPA: 8/10
FPT University

SKILLS

Visual Design

Adobe Photoshop, Adobe Illustrator, Adobe Indesign

Video Design

Adobe After Effects, Adobe Premiere, Filmora

User Interface Design

Adobe Xd, Figma

My projects

Featured Work

App Hibook

Hibook is an online reading application released for digital devices, consisting of text, images or both, that can be read on the flat screen of computers or other electronic devices using information technology. Through personal electronic devices such as personal computers, smartphones, or what can be called "the electronic version of a printed book", providing the closest experience to reading a paper book.

App Device Management

ADM is a core component of enterprise mobility management (EMM), which also includes mobile application management, identity and access management, and share. The intent of ADM is to optimize the functionality and security of mobile devices within the enterprise while simultaneously protecting the corporate devices.

Web Coffee Shop

You will find different brewing methods, traditional espresso beverages, and most also have a selection of tea offerings. In cafes, the main focus is on food rather than coffee, though most cafes will offer coffee pairings on their menus.
